Sagicor Bank | INTEREST RATE |
| ---: |
| DEPOSIT ACCOUNTS Posted Date: January 26, 2023 |
| Effective Date: January 26, 2023 |

The interest rates shown are indicative only and may be adjusted by the Bank without notice to you in response to changes in the prudential reserve policy of the Bank of Jamaica as well as current market conditions. Interest payment terms may also vary between products, please see your product agreement for specific interest terms. Unless otherwise stated in a product agreement, interest will accrue daily based on the daily closing balance of the account and will be credited at the end of each calendar month. Fees, charges, withdrawals and debit entries may reduce the balance of your account and may therefore affect the interest earned, please see our current fee schedule for a list of the fees and charges which are applicable to your account. In addition to the above, the indicative rates shown for Certificates of Deposit are only applicable to deposits which are maintained for the periods shown and the indicative rates shown for savings and current accounts are only applicable to balances in the tiers shown. Sagicor Bank Jamaica Limited makes no representation or warranty with respect to the expected interest rate or interest income to be earned from your account.

[^1]The effective annual interest rate (EAIR) rate is used to determine the actual annual rate that is to be paid on a loan or a financial product if the stated annual rate takes into account the effects of compounding. The formula represents the standard method of converting an annual percentage rate (APR) to EAIR. EAIR $=$ $((1+A P R / n) \wedge n)-\rceil$ Where: EAIR represents the annual rate of interest when compounding occurs more often than once a year APR represents the number of

[^0]:    * Effective Annual Interest Rate

[^1]:    Effective Annual Interest Rate accounting periods n represents the number of compounding periods.

    ## Example:

    A deposit account pays 5 percent per annum compounded quarterly. Applying the formula:
    EAIR $=(1+.05 / 4) 4-1$
    EAIR $=0.050945$ or $5.0945 \%$

    * Effective Annual Interest Rate
