**Important notice to our Corporate Clients and Partners**  
On Sagicor's Business Continuity during COVID-19

As your trusted insurance partner, Sagicor continues to monitor developments surrounding the COVID-19 (Coronavirus) outbreak across the globe and here in the Caribbean.

The World Health Organization (WHO) declared the COVID-19 a pandemic and governments globally and within our territories have issued advisories or directives to temporarily restrict the mobility of citizens in order to curtail the spread of the virus. We remain committed to servicing you and have activated our Health & Safety and Business Continuity Plans. In all that we do, we will always be mindful of the wellbeing of our team members, our clients and our fellow citizens, and will operate in compliance with protocols established by the respective authorities.

We invite you to read the following important information regarding the measures implemented to ensure our continued service to you.

## HEALTH & SAFETY AND BUSINESS CONTINUITY

- We have implemented a multi-level action plan from level 1 to level 4, with level 4 being the highest level, namely: notification of declaration of national emergency and or national shutdown, to ensure readiness for any eventualities.
- We have shared important safety and preventative messages in our lobbies for stakeholder education and information.
- We have made available hand sanitizers and cleaning materials in our lobbies, elevators, and restrooms for clients and team members.
- We have outfitted our team members with the necessary tools to work from home should this become necessary.
- We have engaged critical vendors in an effort to minimize any possible disruptions in our supply chain.
- We have readied our communication plans to provide accurate and timely information to our stakeholders.

These are only a few of the actions taken by Sagicor, in an effort to address these unprecedented circumstances.

Given our wide geographical footprint, we continue to monitor International travel restrictions posted by the US Centers for Disease Control and Protection (CDC) and other public health authorities.

## CONTACTING US

Our contact centers across all territories continue to remain fully operational from 8:00 a.m. to 8:00 p.m. We can also be contacted digitally via our website live chat.
