Caution regarding forward-looking information and non-IFRS measures

Cautionary Statements

Certain information contained in this news release may be forward-looking statements within the meaning of Canadian securities laws. Forward-looking statements are often, but not always identified by the use of words such as “expect,” “anticipate,” “believe,” “foresee,” “could,” “estimate,” “goal,” “intend,” “plan,” “seek,” “will,” “may,” “would” and “should” and similar expressions or words suggesting future outcomes. This presentation includes forward-looking information and statements pertaining to the impact of the COVID-19 pandemic. These forward-looking statements reflect material factors and expectations and assumptions of Sagicor Financial Company Ltd. (“Sagicor” or the “Company”). Sagicor’s estimates, beliefs and assumptions are inherently subject to uncertainties and contingencies regarding future events and as such, are subject to change. Risks and uncertainties not presently known to Sagicor or that presently believes are not material could cause actual results or events to differ materially from those expressed in its forward-looking statements. Additional information on these and other factors that could affect events and results are included in other documents and reports that will be filed by Sagicor with applicable securities regulatory authorities and may be accessed through the SEDAR website (www.sedar.com). Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect Sagicor’s expectations only as of the date of this document. Sagicor disclaims any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as expressly required by law.

Non-IFRS Measures

The Company reports certain non-IFRS measures that are used to evaluate the performance of its businesses and the performance of their respective segments. As non-IFRS measures generally do not have a standardized meaning, they may not be comparable to similar measures presented by other issuers. Securities regulators require such measures to be clearly defined and reconciled with their most comparable IFRS measure.

The Company references non-IFRS measures and insurance industry metrics in this document and elsewhere. Non-IFRS measures are not recognized measures under IFRS and do not have a standardized meaning prescribed by IFRS and are therefore unlikely to be comparable to similar measures presented by other companies. Rather, these are provided as additional information to complement those IFRS measures by providing further understanding of the results of the operations of the Company from management’s perspective. Accordingly, these measures should not be considered in isolation, nor as a substitute for analysis of the Company’s financial information reported under IFRS. Non-IFRS measures used to analyze the performance of the Company’s businesses include but are not limited to: return on shareholders’ equity, book value per share, debt to capital ratio and total capital. Please see the “Non-IFRS Financial Information” section of the Management’s Discussion and Analysis and the discussion below for a reconciliation of these non-IFRS measures.

Return on Shareholders’ Equity: IFRS does not prescribe the calculation of return on shareholders’ equity and therefore a comparable measure under IFRS is not available. To determine this measure, reported net income/(loss) attributable to shareholders is divided by the total weighted average common shareholders’ equity for the period. The quarterly return on shareholders’ equity is annualised. The ROE provides an indication of overall profitability of the company.

Book value per share: To determine the book value per share, shareholders’ equity is divided by the number of shares outstanding at the period end, net of any treasury shares. All components of this measure are IFRS measures.

Debt to capital ratio: The debt to capital ratio is the ratio of notes and loans payable (refer to note 16 to the 2021 audited consolidated financial statements) to total capital (excluding participating accounts), where capital is defined as the sum of notes and loans payable and total equity excluding participating accounts. This ratio measures the proportion of debt a company uses to finance its operations as compared with its capital.

Total capital: This measure provides an indicator for evaluating the Company’s performance. Total capital is the sum of shareholders’ equity, notes and loans payable and non-controlling interest. This measure is the sum of several IFRS measures.

Minimum Continuing Capital and Surplus Requirements (MCCSR): The MCCSR is a capital adequacy measure for life insurance companies that was established by the Office of the Superintendent of Financial Institutions Canada (“OSFI”). It was used to monitor that insurers maintain adequate capital to meet their financial obligations with 150% being the minimum standard that was recommended by Canadian regulators when it was in effect; companies were expected to establish and meet an internal target greater than 150%. Refer to note 45.2 to the 2021 audited financial statements, for details. IFRS does not prescribe the calculation for the MCCSR, therefore a comparable measure under IFRS is not available.

¹ Robust sales of annuities and asset spreads in our Sagicor Life USA segment, and a solid performance from Sagicor Jamaica overall

² Mark-to-market declines on financial assets mainly due to increasing interest rates

³ Strong sales of multi-year guaranteed annuities in the USA, strong individual life sales at Sagicor Jamaica

TopCo bond refinance and additional offering in 2021
Group performance

- **Q1 2022 Highlights**
  - Significant increased sales of multi-year guaranteed annuities (MYGA) as part of stated strategy to scale the business, driving revenue growth
  - Improved asset spreads combined with increased sales contributed to excellent profitability

- **Sagicor Life USA (100% ownership)**
  - Total revenue ($ millions): Q1 2021 111, Q1 2022 372
  - Net income ($ millions): Q1 2021 1, Q1 2022 26

- **Sagicor Jamaica (49% ownership)**
  - Total revenue ($ millions): Q1 2021 166, Q1 2022 162
  - Net income ($ millions): Q1 2021 10, Q1 2022 13

- **Sagicor Life (100% ownership)**
  - Total revenue ($ millions): Q1 2021 130, Q1 2022 124
  - Net income ($ millions): Q1 2021 8, Q1 2022 7

- **Q1 2022 Highlights**
  - Moderate growth in net life and health insurance premium revenue
  - Adverse policyholder behavior and mortality relative to long term trends due to the ongoing effect of the pandemic
  - Robust net income considering the challenging operating environment

- **Q1 2022**
  - Total revenue ($ millions)
    - Sagicor Life USA 372
    - Sagicor Jamaica 162
    - Sagicor Life 124
  - Net income ($ millions)
    - Sagicor Life USA 26
    - Sagicor Jamaica 13
    - Sagicor Life 7
Executing on capital management priorities

**Funding organic growth**
- Focused on supporting growth in Sagicor Life USA and leveraging our industry leading digital capabilities
- Continuing growth in core Caribbean markets leveraging Sagicor’s brand and customer loyalty to deepen penetration
- Expanding product shelf in banking and wealth management

**Capital returns to investors**
- Dividend declared during Q1 2022 (10th consecutive dividend since becoming publicly listed on TSX), paid US$33 million in dividends to investors in 2021 and US$33 million in 2020 (~4% annualized dividend yield at the current share price)
- Repurchased US$1 million in common shares in Q1 2022, US$20 million in 2021 and US$13 million in 2020

**M&A opportunities and strategic investments**
- Constantly exploring inorganic opportunities that meet strategic and financial hurdle targets
- Expand affiliate reinsurance strategy
- Look to build scale and leverage our brand and capabilities in the markets in which we operate and to best serve our customers

**Maintain strong capital base**
- Bond refinancing during Q2 2021 to save $7 million in annual interest costs and provided $70 million in additional growth capital; additional $150 million debt raise in Q4 2021
- SFC credit rating upgrade to BB+ during Q4 2020 by S&P
- Strong capital available with MCCSR\(^1\) ratio of 244% at Q1 2022
- Significant capital deployment potential

\(^1\)Represents a non-IFRS measure. See the Non-IFRS Measures section in this document and in our MD&A for relevant information about such measures.
Sagicor investment highlights

- **Diversified operations** with solid market-leading positions in the Caribbean and a fast-growing US business

- **Significant growth opportunities** both organic and inorganic

- **Established track record** of robust growth driving consistent profitability

- **Well capitalized to execute growth**, conservative leverage and strong risk culture

- **Technological transformation** deeply embedded throughout the organization

- **Best in class management** team and Board of Directors
