Caution regarding forward-looking information and non-IFRS measures

Cautionary Statements

Certain information contained in this news release may be forward-looking statements within the meaning of Canadian securities laws. Forward-looking statements are often, but not always, identified by the use of words such as "expect," "anticipate," "believe," "foresee," "could," "estimate," "goal," "intend," "plan," "seek," "will," "may," "would" and "should" and similar expressions or words suggesting future outcomes. This presentation includes forward-looking information and statements pertaining to the impact of the COVID-19 pandemic. These forward-looking statements reflect material factors and expectations and assumptions of Sagicor Financial Company Ltd. ("Sagicor" or the "Company"). Sagicor's estimates, beliefs and assumptions are inherently subject to uncertainties and contingencies regarding future events and as such, are subject to change. Risks and uncertainties not presently known to Sagicor or that it presently believes are not material could cause actual results or events to differ materially from those expressed in its forward-looking statements. Additional information on these and other factors that could affect events and results are included in other documents and reports that will be filed by Sagicor with applicable securities regulatory authorities and may be accessed through the SEDAR website (www.sedar.com). Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect Sagicor’s expectations only as of the date of this document. Sagicor disclaims any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as expressly required by law.

Non-IFRS Measures

The Company reports certain non-IFRS measures that are used to evaluate the performance of its businesses and the performance of their respective segments. As non-IFRS measures generally do not have a standardized meaning, they may not be comparable to similar measures presented by other issuers. Securities regulators require such measures to be clearly defined and reconciled with their most comparable IFRS measure.

The Company references non-IFRS measures and insurance industry metrics in this document and elsewhere. Non-IFRS measures are not recognized measures under IFRS and do not have a standardized meaning prescribed by IFRS and are therefore unlikely to be comparable to similar measures presented by other companies. Rather, these are provided as additional information to complement those IFRS measures by providing further understanding of the results of the operations of the Company from management’s perspective. Accordingly, these measures should not be considered in isolation, nor as a substitute for analysis of the Company’s financial information reported under IFRS. Non-IFRS measures used to analyze the performance of the Company’s businesses include but are not limited to: return on shareholders’ equity, book value per share, debt to capital ratio and total capital. Please see the “Non-IFRS Financial Information” section of the Management’s Discussion and Analysis and the discussion below for a reconciliation of these non-IFRS measures.

Return on Shareholders’ Equity: IFRS does not prescribe the calculation of return on shareholders’ equity and therefore a comparable measure under IFRS is not available. To determine this measure, reported net income/(loss) attributable to shareholders is divided by the total weighted average common shareholders’ equity for the period. The quarterly return on shareholders’ equity is annualised. The ROE provides an indication of overall profitability of the company.

Book value per share: To determine the book value per share, shareholders’ equity is divided by the number of shares outstanding at the period end, net of any treasury shares. All components of this measure are IFRS measures.

Debt to capital ratio: The debt to capital ratio is the ratio of notes and loans payable (refer to note 16 to the 2021 audited consolidated financial statements) to total capital (excluding participating accounts), where capital is defined as the sum of notes and loans payable and total equity excluding participating accounts. This ratio measures the proportion of debt a company uses to finance its operations as compared with its capital.

Total capital: This measure provides an indicator for evaluating the Company’s performance. Total capital is the sum of shareholders’ equity, notes and loans payable and non-controlling interest. This measure is the sum of several IFRS measures.

Minimum Continuing Capital and Surplus Requirements (MCCSR): The MCCSR is a capital adequacy measure for life insurance companies that was established by the Office of the Superintendent of Financial Institutions Canada (“OSFI”). It was used to monitor that insurers maintain adequate capital to meet their financial obligations with 150% being the minimum standard that was recommended by Canadian regulators when it was in effect; companies were expected to establish and maintain an internal target greater than 150%. Refer to note 45.2 to the 2021 audited financial statements, for details. IFRS does not prescribe the calculation for the MCCSR, therefore a comparable measure under IFRS is not available.

Market capitalisation: Market capitalisation is the value a company is traded on the stock market. It is calculated by multiplying the total number of shares by the present share price, at a given date. IFRS does not prescribe the calculation of market capitalization, therefore a comparable measure under IFRS is not available.

All figures in this presentation are in US$ unless otherwise noted.
Business Overview
Sagicor at a glance

- Leading financial services provider in 20 countries primarily in the Caribbean, with a growing presence in the U.S.
- Provides life, health, and P&C insurance, annuities, banking, asset management and pension products to individuals and groups
- Over 180-years-old, with a long track record of strong organic and inorganic growth
- Public company listed on the Toronto Stock Exchange

Sagicor investment highlights

- **Diversified operations** with **solid market-leading positions** in the Caribbean and a **fast-growing** US business

- **Significant growth opportunities** both organic and inorganic

- **Established track record** of robust growth driving consistent profitability

- **Well capitalized to execute growth**, conservative leverage and strong risk culture

- **Technological transformation** deeply embedded throughout the organization

- **Best in class management** team and Board of Directors
Building for future growth: ongoing continuum

**Digitize processes**
- Enhance digital capabilities across the platform
- Grow captive agency distribution and third-party network

**People**
- Raise engagement through digital channels
- Enhance customer satisfaction
- Targeted approach to new product sales

**Products**
- Consolidate in core markets and enhance scale
- Optimize investment portfolio
- Leverage data and automation to enhance underwriting performance

**Invest across the platform**

**Expand distribution**
- Appropriate targeted leverage
- Expand use of affiliate reinsurance
- Target capital levels above regulatory minimums

**Deepen customer relationships**

**Optimize capital**

**Enhance profitability**

**Shareholder returns**

**Reinvest in the business**

**New growth initiatives**
Executing on capital management priorities

Funding organic growth

➢ Focused on supporting growth in Sagicor Life USA and leveraging our industry leading digital capabilities
➢ Continuing growth in core Caribbean markets leveraging Sagicor’s brand and customer loyalty to deepen penetration
➢ Expanding product shelf in banking and wealth management

M&A opportunities and strategic investments

➢ Constantly exploring inorganic opportunities that meet strategic and financial hurdle targets
➢ Affiliate reinsurance strategy
➢ Look to build scale and leverage our brand and capabilities in the markets in which we operate and to best serve our customers

Capital returns to investors

➢ Paid US$33 million in dividends to investors in 2021 and US$33 million in 2020 (~4% annualized dividend yield at the current share price)
➢ Repurchased US$20 million in common shares in 2021 and US$13 million in 2020

Maintain strong capital base

➢ Bond refinancing during Q2 2021 to save $7 million in annual interest costs and provided $70 million in additional growth capital; additional $150 million debt raise in Q4 2021
➢ SFC credit rating upgrade to BB+ during Q4 2020 by S&P
➢ Strong capital available with MCCSR\(^1\) ratio of 269% at Q4 2021
➢ Significant capital deployment potential

Significant growth opportunities

Caribbean

- Focus on penetrating the under-insured and under-pensioned
- Continue progress on digital initiatives to reach new customers

Future

- Expand product shelf within existing distribution footprint (banking, wealth management, P&C)
- Expand in new markets with similar regulatory & risk appetite parameters

U.S.

- Grow market share in individual fixed annuities
- Highly fragmented industry with increased need for protection products due to strong secular trend of an aging population
- Leverage product expertise in Caribbean to expand product suite

Significant excess capital provides optionality for organic and inorganic growth

brand, expertise and distribution in key growth markets
Track record of robust growth and profitability

Sagicor is leaning in on digital: recent initiatives

Enhancing Customer Touchpoints & Service

- **Sagicor One Client Centre** created a modern Client Service Center bringing together staff across services and products.
- **Virtual Customer Experience** enhanced online scheduling facility
- **Portals Enhancements** enriched processes for claims, payments, renewals, notes and certificates.
- **Chatbot Deployment** expanded use of chatbots in markets utilizing WhatsApp Business.

New Products and New Business Lines

- **New and Expanded Insurance Products** included the launch of the Saver Series and expanded Peace Assured III. Implementation of Simplified Issue for Sagicor Life Solutions, Whole Life and Saver Series in various markets.
- **Wealth Management** implemented technology stack including online application forms, client and portfolio management, compliance, workflow, and account payments.

Enhanced Sales, eCommerce and Leads

- **Safe Driver Telematics** successful experiment for a safe driver mobile application that integrates a driver’s scores into mobile app feature to be offered to reduce their renewal premium, while fostering retention of better risk.
- **ApplyOn Pilot** to deliver a Leads Management solution as well as six online quotation calculators as a source of leads for the advisor force and integration with social media.
- **elife Direct to Consumer Portal** delivers an online platform for life insurance products.
- **Connect Platform with Engage** automates customer onboarding and eligibility checking and provides a seamless way of managing the digital wellness program.
- **Individual Health (IH) New Business Electronic Application** provides an electronic IH application for advisors to complete and submit online and automated integration with systems.
