Sagicor supports cervical cancer awareness

Port of Spain, Trinidad—Sagicor was a sponsor at the second annual Pap Party by the non-profit My Sister's Keeper Initiative on April 13. The event was held at the Centre of Excellence in Macoya, and focused on increasing cervical cancer awareness.

According to the HPV Information Centre, cervical cancer is the second most common female cancer in women aged 15 to 44 in Trinidad and Tobago, with 140 new cases being diagnosed annually.

As a health insurance provider, Sagicor saw the value in sponsoring this event, as it is centred around cervical cancer prevention, with free pap smears, HPV (human papilloma virus) vaccines, and cervical cancer education from some of Trinidad and Tobago's leading gynaecologists.

Sagicor's financial advisors were on hand to orient attendees to the fact that cervical cancer prevention must also be paired with a proactive approach to safeguarding one's health in the event that one is affected by cervical cancer, that is, by having critical illness insurance.

Sagicor offers three critical illness plans to suit the needs of every individual: Life Protector III, Triple Protector, and Maximum Protector II. To learn more about these plans, call 800-SAGE to talk to a Sagicor advisor or visit www.sagicorlife.com/Pages/Countries/Countries-Trinidad-and-Tobago.
