Hi! I'm SIA. Sagicor's Intelligent Assistant. I'd love to get to know you better. Here's a bit about me!

We can chat **24/7** on Sagicor's WhatsApp channel. Just add **1 (246) 467-7243** to your WhatsApp, and I'll be there to guide you through your WhatsApp experience.

Here are just a few things I can help you with:

Need to make an insurance claim?

Add us to WhatsApp!
Follow my prompts, as I ask you just a few questions
I'll immediately send the claims form to your email. Reply with your completed form and information and voila! Your claim is submitted.
Need an insurance quote? Ready to make that switch? Again, follow the prompts, enter your details and I'll send your information to one of our agents.

You can also ask about me about products, latest offers, the nearest Sagicor location and so much more!

Please note that you are safe with me. Unlike the virtual assistants that come installed with your phone, I can only access the information you give to me within WhatsApp. I would never ask for information such as passwords or credit card information.

Need help? I'm here to assist. Let's chat!
