Download the Sagicor Drive app today and join in the monthly safe driving challenges to win prizes and earn Sagicor savings.

Follow us on social media and stay tuned to our pages for updates.

Learn More About Our Rewards

How are rewards earned?

The rewards to be earned with Sagicor Drive are: badges, challenges, points, and a renewal discount.

Badge

A badge is earned when a driver meets pre-defined criteria that are linked to good driving. Every two months there will be a pop-up event where you can present the badges you've won and spin the wheel to claim your reward.

Monthly Challenges

Every month there will be a driving challenge that focuses on an aspect of good driving. You will receive a notification via the app inviting you to opt into these challenges. Be one of the top ten drivers to complete the challenge and you will earn a voucher that is redeemable at various stores.

Rewards Points

The safer you drive, the more points you can earn monthly. When you have enough points, you can earn vouchers that are redeemable at various stores.

Renewal Points

Your driving score and your app usage will both contribute to the discount you earn. This discount will be applied to your renewal premium even if you've already maxed out on allowable discounts or if your premium has reached the minimum level for the type of policy you have.
