# Public Liability Insurance

Without Public Liability Coverage, you are at risk of incurring thousands, or even hundreds of thousands of dollars in expenses if someone is injured on your premises. We are offering a free risk assessment and special rates on public liability coverage to get you started.

At Sagicor General Insurance, we see ourselves as an active partner in your business' success. It's our business to protect your business from losses which could be devastating to its continued operation. For times like those, Sagicor General Insurance offers Public Liability Insurance coverage, without which, you are at the risk of incurring thousands, or even hundreds of thousands of dollars in expenses if someone is injured on your premises. Up to four in ten businesses will receive one such claim throughout its existence.

Depending on the extent of that claim, the expense can put your business in jeopardy. Sagicor General's Public liability insurance is designed for professionals who interact with customers or members of the public. It protects against claims of personal injury or property damage that a third party suffers (or claims to have suffered) as a result of your business activities. It can cover compensation payments and legal costs if a member of the public (a customer, a supplier, or a passerby) sues your business because he/she has been injured or his/her property has been damaged.
