## How the Sagicor Term Life Plans Work?

Sagicor's Term Life plans provide the payment of a death benefit to your beneficiary if you die during the term of the plan. If you are still living at the end of the term, no payment is made and protection ceases.

The Five year renewable plan can be renewed at the end of the period. This can be at any age that falls before the insured's 80th birthday. All the other plans provide the policyowner with the option to purchase a permanent life insurance plan at any time up to thirty days after the conversion period, without meeting the usual underwriting requirements. The premiums payable on the new plan are based on the life insured's age at the time of conversion.

Additional riders can be purchased such as Waiver of Premium Benefit and Accidental Death & Dismemberment

Option.

The Term Life Insurance Plan is one of the many solutions offered by Sagicor to help you reach your goals. Please ask a Sagicor Advisor how this product can be part of a wise approach to your complete financial well-being.
