Triple Protector Plus provides a living benefit in cash directly to the life insured. The amount paid out can be used for any purpose, from immediate health related costs to more general financial concerns such as looking after business, assets, or family. This gives the insured the freedom to concentrate more closely on getting healthy.

Advances in medicine mean that even when diagnosed with one of these diseases, you are likely to survive for a long time. However, coping with a critical illness will not be cheap. The technology that may save your life could destroy your financial well-being in the process. Recovery is often lengthy and expensive, involving losses to your personal wages and costs for care and treatment. This cash lump sum helps ease financial worries while you are undergoing treatment and recuperation.
