Overview

With experience and expertise gained as market leaders in pension, thank you for allowing Sagicor to guide you to living your dream retirement lifestyle, without compromising your lifestyle today.

We offer the most diverse range of asset classes and the greatest level of diversification within each asset class, thereby enhancing fund returns while minimizing risk.
Our goal is to equip members with sufficient information about their pension plan ensuring they are informed every step of their retirement journey. This innovation is a game-changer in the Jamaican pension landscape.

With the My Sagicor App you can manage your pension plan from your phone in the palm of your hand.

Features

As the first of its kind in Jamaica, the My Sagicor App allows members of Sagicor Life Jamaica's Pension Portfolio to quickly access their pension information on the go. Within the My Sagicor App you will be able to:

- Track your account balances
- View contributions made to your plan
- View and edit beneficiary information
- View your Annual Member statements for the past 3 years
- View your fund reports
- View real time and historical investment returns
- Access retirement calculators
- View and edit contact information

For a brief tutorial on how to access defined benefit environment and defined contribution environment, click the respective links below:
