overview

At Sagicor, we pride ourselves on being the standard bearer when it comes to being flexible and adaptable to the changing needs of our clients. Our Credit and Corporate Banking Division especially prides itself on being very flexible as credit officers are available to give individualised service to each of their clients. They examine the needs of each business in order to provide the best solutions.

We are an authorized financial intermediary for the EXIM Bank, Development Bank of Jamaica and several overseas development funding agencies and thus we have the best financing options to offer.
