Overview

Savvy Wellness is a premium reporting service based on a company's health profile and it is the first of its kind in the region. It Provides the medium to identify the health trends within your employee population so that you can create mitigating wellness programmes.

Offerings

Your Savvy Wellness report has four options available:

• The wellness report: provides a summary of the health trends with your employee & dependent population
• Drug listing: Identifies the top 100 drugs used by your employee base and provide an average cost for each drug
• Wellness calendar: provides month by month activities for wellness initiatives that can be embraced by your company
• Wellness Tips: provides tips on creating your own wellness programme within your organization and exciting video clips for keeping fit and eating healthy.
