PENSION PRODUCTS Employee Sponsored Pension Funds

An Employer Sponsored Pension Plan (Superannuation Fund) is a special retirement savings vehicle with its main aim being to provide contributors with a reasonable replacement income after they reach their retirement age. These arrangements are also referred to as occupational schemes. Superannuation Funds are governed by Trust Law, Income Tax Act and also by the Pension Act (2004).

It is a trust arrangement where an employer places assets in the care of trustees to ensure the provision of a pension for members of the plan who are the beneficiaries of the trust. The trustees therefore have full management and administration rights and responsibilities for the assets but these rights must be exercised to the full advantage of the beneficiaries of the fund. The main advantages of operating these funds are as follows:

- contributions are deducted before tax
- contributions earn tax free interest
- the employer's contributions on behalf of a member are also tax free
