Medication Therapy Management

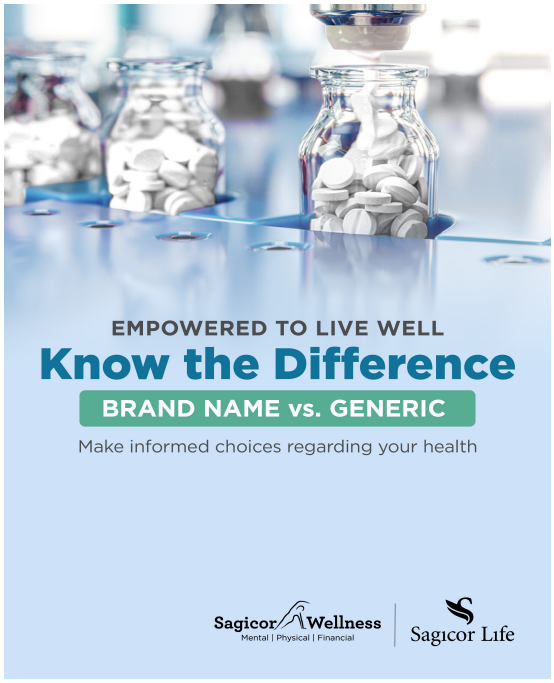

Medication Therapy Management (MTM) programme was designed to assist clients who are dependent on multiple maintenance drugs to improve their wellness while reducing the amount of drugs taken. This program will assist you in ensuring that all your medications are working effectively.

MTM provides a range of services by a Clinical Pharmacist to individual patients that will assist them in optimizing therapeutic outcomes and minimize the contra-indication of drugs.

MTM Drug Leaflet

We are committed to helping you make informed decisions about your health. When it comes to medication, understanding the difference between brand name and generic drugs is key. Through our Medication Therapy Management services, Sagicor is here to guide you in navigating your options, making your health journey more affordable without compromising on quality.

Learn more about generic vs brand name drugs from the leaflet below.

Visit the Sagicor Wellness Hub for more resources and to learn how we can support your healthcare needs.

MTM Wellness Forum

Check out this insightful discussion on medication management and patient safety.

In this edition of our MTM Empowered to Live Well Breakfast Forum, we explored:

-Preventing Medication Harm

-Identifying Patient Risk

-Resolving Medication Misadventures

Discover some valuable insights and practical tips to empower yourself and your loved ones to live healthier lives through proper medication management.
