Most of us are concerned about finances not only for ourselves, but also for our families. The best financial plan in the world can fall apart if illness or damage to our personal property causes sudden loss of income or incurs unexpected costs. But you can protect yourself with insurance.

HEALTH COVERAGE

Can pay part of the cost of treatment in the event of a major accident or illness.

LIFE INSURANCE ASSURES

Assures that, in the event of your death, your family will not be burdened by the loss of income or funeral expenses. It can even be used as collateral for a mortgage, to help you on the road to home ownership.

PROPERTY AND CASUALTY COVERAGE

Insures your home or auto against loss due to damage, theft or liability.

There are many different types of life insurance policies. Some are pure insurance, others include an investment component. The best way to get the right coverage, without paying more than you need to, is to read up on the basic issues and then speak with a Sagicor Advisor who can explain the issues, consider your total financial picture and recommend a policy to best suit your needs.
