Fitch Affirms Sagicor Financial's Ratings; Outlook Stable on Coronavirus Risk

Fitch Ratings - New York - 08 Jun 2020: Fitch Ratings has affirmed Sagicor Financial Company Limited's (SFCL) Long-Term Issuer Default Rating (IDR) at 'BB' and SFCL's senior debt ratings at 'BB-'. The Rating Outlook is Stable.

Key Rating Drivers

Fitch's current assessment of the impact of the coronavirus pandemic, including its economic impact, is based on a set of ratings assumptions described below. These assumptions were used by Fitch to develop pro forma financial metrics for SFCL that Fitch compared to both ratings guidelines defined in its criteria and relative to previously established Rating Sensitivities for SFCL.

The ratings affirmation with a Stable Outlook for SFCL reflects Fitch's pro forma analysis and expectation that SFCL will continue to perform in line with rating expectations. Today's rating actions follow Fitch's recent action to revise the rating outlook on the U.S. life insurance industry to negative. Fitch's primary concerns over the near term include the decline in interest rates, equity market declines, increases in credit losses, and rating migration. Longer term, SFCL's credit profile remains vulnerable to a prolonged, steep macroeconomic downturn and sustained low interest rates.

Fitch expects deterioration in SFCL's capital metrics and financial performance from the coronavirus, including increased credit defaults and ratings migration on the investment portfolio over the near term. Fitch's pro forma analysis for SFCL shows the impact of the asset stresses does not result in a breach of key rating downgrade sensitivities. Fitch's current expectation is that the impact of coronavirus, while material, is manageable for SFCL due largely to the company's strong capital position and improved liquidity resulting from the Alignvest Acquisition II (AQY) transaction. Longer term, concerns around a potentially lower for longer interest rate scenario will negatively affect SFCL and peers in terms of pressure on capital and earnings.

Fitch considers SFCL's holding company liquidity, which includes cash and cash equivalents of $405 million as of March 31, 2020, to be ample relative to annual financial debt interest expense of approximately $38 million and debt maturities of approximately $93 million in 2020. SFCL has the next debt maturity of $320 million occurring in 2022.

SFCL's ratings continue to consider the company's improved business profile, which has been supported by steady growth in earnings and assets in investment grade jurisdictions, particularly the company's U.S. operations over the last few years. Fitch's view on business profile also considers the
operating and economic environments of two of its main insurance subsidiaries in Jamaica and Barbados, both of which have below-investment grade sovereign ratings. SFCL has very high capital exposure and concentrations in below-investment-grade sovereign debt, which are primarily used to meet local regulatory requirements and match local liabilities. The ratings also consider SFCL's strong and stable profitability, and macroeconomic challenges associated with low interest rates.

Key Assumptions

Fitch used the following key assumptions, which are designed to identify areas of vulnerability, in support of the pro-forma ratings analysis discussed above:

--Decline in key stock market indices by 35% relative to Jan. 1, 2020.

--Increase in two-year cumulative high yield bond default rate to 16%, applied to current non-investment grade assets, as well as 12% of 'BBB' assets.

--Both upward and downward pressure on interest rates, with spreads widening (including high yield by 400 basis points) coupled with notable declines in government rates.

--Capital markets access is limited for issuers at senior debt levels of BBB and below.

--A COVID-19 infection rate of 5% and a mortality rate (as a percent of infected) of 1%.

RATING SENSITIVITIES

The ratings remain sensitive to any material change in Fitch's Rating Case assumptions with respect the coronavirus pandemic. Periodic updates to our assumptions are possible given the rapid pace of changes in government actions in response to the pandemic, and the pace with which new information is available on the medical aspects of the outbreak. A discussion of how ratings would be expected to be impacted under a set of Stress Case assumptions is included at the end of this section to help frame sensitivities to a severe downside scenario.

Factors that could, individually or collectively, lead to negative rating action/downgrade:

--A material adverse change in Fitch’s Ratings Assumptions with respect to the coronavirus impact.

--Significant deterioration in the economic and operating environments and sovereigns of Jamaica, Trinidad, and Barbados, which would lead to a material decline in operating performance and/or credit profile of SFCL's investment portfolio.

--Deterioration in key financial metrics, including consolidated MCCSR falling below 180% and financial leverage exceeding 50% and ROE below 5% on a sustained basis.

Factors that could, individually or collectively, lead to positive rating action/upgrade:
--A material positive change in Fitch's Ratings Assumptions with respect to the coronavirus impact.

--A positive rating action is prefaced by Fitch's ability to reliably forecast the impact of the coronavirus pandemic on the financial profile of both the U.S. life insurance industry and SFCL.

--No material deterioration in economic and operating environments and sovereigns of Jamaica, Trinidad, and Barbados resulting from the coronavirus situation.

--Deployment of capital proceeds from the AQY transaction to grow operations in investment grade jurisdictions.

--Decline in financial leverage ratio below 25% (adjusted to exclude non-controlling interests from capital).

Stress Case Sensitivity Analysis

--Fitch's more severe Stress Case assumes a 60.0% stock market decline, two-year cumulative high yield bond default rate of 22.0%, high yield bond spreads widening by 600 basis points and more prolonged declines in government rates, heightened pressure on capital markets access, a COVID-19 infection rate of 15.0% and mortality rate of 0.75%.

--The implied rating impact under the Stress Case would be a downgrade by no more than one notch.

Best/Worst Case Rating Scenario

International scale credit ratings of Financial Institutions issuers have a best-case rating upgrade scenario (defined as the 99th percentile of rating transitions, measured in a positive direction) of three notches over a three-year rating horizon; and a worst-case rating downgrade scenario (defined as the 99th percentile of rating transitions, measured in a negative direction) of four notches over three years. The complete span of best- and worst-case scenario credit ratings for all rating categories ranges from 'AAA' to 'D'. Best- and worst-case scenario credit ratings are based on historical performance. For more information about the methodology used to determine sector-specific best- and worst-case scenario credit ratings, visit https://www.fitchratings.com/site/re/10111579.

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in
accordance with its ratings methodology, and obtains reasonable verification of that information from
independent sources, to the extent such sources are available for a given security or in a given
jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it
obtains will vary depending on the nature of the rated security and its issuer, the requirements and
practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located,
the availability and nature of relevant public information, access to the management of the issuer and
its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon
procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports
provided by third parties, the availability of independent and competent third- party verification
sources with respect to the particular security or in the particular jurisdiction of the issuer, and a
variety of other factors. Users of Fitch's ratings and reports should understand that neither an
enhanced factual investigation nor any third-party verification can ensure that all of the information
Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the
issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to
the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must
rely on the work of experts, including independent auditors with respect to financial statements and
attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other
information are inherently forward-looking and embody assumptions and predictions about future
events that by their nature cannot be verified as facts. As a result, despite any verification of current
facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at
the time a rating or forecast was issued or affirmed.
The information in this report is provided "as is" without any representation or warranty of any kind,
and Fitch does not represent or warrant that the report or any of its contents will meet any of the
requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a
security. This opinion and reports made by Fitch are based on established criteria and methodologies
that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective
work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a
report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk
is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have
shared authorship. Individuals identified in a Fitch report were involved in, but are not solely
responsible for, the opinions stated therein. The individuals are named for contact purposes only. A
report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled,
verified and presented to investors by the issuer and its agents in connection with the sale of the
securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of
Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy,
sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of
any security for a particular investor, or the tax-exempt nature or taxability of payments made in
respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and
underwriters for rating securities. Such fees generally vary from US$1,000 to US$750,000 (or the
applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues
issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single
annual fee. Such fees are expected to vary from US$10,000 to US$1,500,000 (or the applicable currency
equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a
consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001

Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the "NRSRO"). While certain of the NRSRO's credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see https://www.fitchratings.com/site/regulatory), other credit rating subsidiaries are not listed on Form NRSRO (the "non-NRSROs") and therefore credit ratings issued by those subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.

Endorsement policy

Fitch's approach to ratings endorsement so that ratings produced outside the EU may be used by regulated entities within the EU for regulatory purposes, pursuant to the terms of the EU Regulation with respect to credit rating agencies, can be found on the EU Regulatory Disclosures page. The endorsement status of all International ratings is provided within the entity summary page for each rated entity and in the transaction detail pages for all structured finance transactions on the Fitch website. These disclosures are updated on a daily basis.
